

Iowa DOT “Intersection Safety Improvement Candidate Location” (SICL) list 2008-2012

Iowa DOT Crash Analysis also tracks the locations of accidents at intersections throughout Centerville. The number of intersections accidents decreased by 59 during the surveyed years of 2004-2008 to 2008-2012. The city has worked to improve signage, safety, and speed reduction throughout the years to improve traffic safety. Iowa DOT has developed an “Intersection Safety Improvement Candidate Location” (SICL) list. The following data shows 108 intersection locations for potential improvements in Centerville. It is important for the city to collaborate roadway safety and improvements with RPA 17 and Iowa DOT to improve safety for its roadway users.
